

# Lost on the Moon Exercise

You are in a space crew originally scheduled to rendezvous with a mother ship on the lighted surface of the moon. Mechanical difficulties, however, have forced your ship to crash-land at a spot some 200 miles from the rendezvous point. The rough landing damaged much of the equipment aboard. Since survival depends on reaching the mother ship, the most critical items available must be chosen for the 200 mile trip.

Below are listed 15 items left intact after landing. Your task is to rank them from most important (write a “1” next to this item) to least important (write a “15” next to this item).

Item	(1) Your Ranking	(2) Team Ranking	(3) NASA Scientist’s Ranking	(1) – (3) (absolute value)	(2) – (3) (absolute value)
